PARAMOUNT MODEL UN

ABOUT US

ABOUT US

Paramount Model United Nations is a platform for young minds to come together, debate, deliberate and visualize solutions to the challenges shaping our world.

Through the principles of diplomacy, cooperation and critical thinking, Paramount MUN exposes its delegates to a world beyond traditional discussions. We do this through rigorous committee sessions, diverse perspectives, and meaningful discourse to develop the ability to speak with purpose, listen with understanding and lead with conviction.

At Paramount MUN, every agenda is a challenge, every perspective is important and every delegate has an opportunity to be heard.

This is more than just a conference.

It's where ideas clash, perspectives are built, and future leaders are made.

ABOUT MODEL UNITED NATIONS

The Model United Nations (MUN) is an academic simulation of the United Nations, in which students act as diplomats and representatives of nations, international organizations or other stakeholders. Students attend formal committee meetings where they debate key world problems, negotiate with other students and attempt to find workable solutions.

MUN is not only a simulation but also a training ground for critical thinking, diplomacy, research, communication, negotiation and leadership. Delegates must learn to see complex issues from many different perspectives, argue for their assigned position, build coalitions, and seek common ground even when positions are in conflict. At Paramount Model United Nations, we believe that meaningful diplomacy starts with the ability to listen, question, deliberate and respond with purpose.

MUN is more than simply speaking.

It's about smart negotiation and making an impact and critical thinking."
